

Summer Program Descriptions

Edah Programming (Monday/Wednesday)

Peulat Edah - One of the special things about camp is getting to be a part of an edah, your age group family. Each week, our *Rashei Edah* (unit heads) along with our incredible *tzevet* (staff) will put together fun and engaging edah programming that enables campers to spend time as an entire edah, having fun, connecting with one another and building an edah identity.

Peulat Kvutzah - Camp is all about connecting and laughing with camp friends. Imagine that you are sitting in the bayit or at the pool playing cards, making friendships bracelets and hanging out with your friends. Kvutzah time will allow campers to foster small group connections, spend time enhancing those special camp friendships and building new ones.

Maslulim/Specialty Track Programming (Tuesday/Thursday)

Al Habama (Performing Arts) - Bring the magic of the stage into your homes! Led by our beloved Rosh Maslul, Mark Lazar, campers will build their skills in script writing, acting, singing and dancing. Over the course of the session, campers will be working together to develop, record and edit a short video that will be shared with our entire camp community.

B'toch Hayam (Ocean Exploration) - Even though we can't build an ocean in our backyards, that doesn't mean that we can't bring the ocean into our homes in other ways. Over the course of the session, campers will have an opportunity to experience the life and magic that lies *B'toch Hayam*, below the ocean surface. Campers will learn about the ocean environment and ocean conservation, discover marine organisms that live in the incredible Monterey Bay ecosystem, raise questions about marine sustainability and explore the techniques behind surfing, paddling and scuba diving.

Etgar (Adventure Sports) - From backcountry to backyard, our etgar specialty track will bring the *masa* experience right into your homes. Over the course of the session campers will work on developing their wilderness survival skills, learn about the importance of Leave No Trace and environmental sustainability, and enjoy outdoor activities while connecting with nature.

A list of supplies for this program will be provided with the link after registration.

Chuggim/Electives (Tuesday/Thursday)

Cooking & Culture - What better way to learn about another culture than by experiencing it through food. Each session you will have the opportunity to take a glimpse into different Jewish communities around the world, learn how to make a cultural delicacy and experience the smells and tastes of Jewish cooking worldwide right from the comfort of your own home. Before each session we will be sending out the recipes and a list of supplies, so you can be sure to have all of the ingredients you need. ***A list of ingredients for this program will be provided with the link after registration.***

Art - Everyone has a little Picasso, Van Gogh and Warhol inside. It's time to bring your inner artist to life and let your creativity shine! Join our talented artist in residence, Ilana Sandberg, for a week of crafting, painting and so much more, all with a Jewish twist. ***A list of supplies for this program will be provided with the link after registration.***

For campers 7th Grade and up, we are also offering a Tallit-making option at this time! If you are interested in Tallit-making there are a few supplies that you are going to need.

- 100% Cotton fabric - cut to whatever size you want your tallit to be. The tallit I made last year was 2' by 4'6" approximately but you can make it any size you'd like (you can also use a combination of fabrics if you're up for a little more sewing)
- Needle and thread
- Tzitzit ([can be ordered using this link](#))
- Iron on fabric for atarah ([can be ordered using this link](#))
- Fabric or permanent markers to write on/decorate atarah (and tallit as a whole)

Sports/Fitness - Even in the summer off season, keep your body in shape. It's time to get fit with Galim! Join us for some training and conditioning activities and work on your skill drill challenges.

Dance - Get your heart rate going and work up a sweat by dancing along to the beat. Join our dance instructor to learn some new dance steps and improve your moves!

Tikkun Olam Projects - Tikkun Olam is the idea of bettering the world that we live in. During these challenging times, it is so important that we find ways to help and support our community. Help send waves of positivity this summer by participating in some Tikkun Olam projects.
