

Dear Ramah Galim Community,

As we get closer to the summer, we will begin sending emails to support your family in preparing for a safe and meaningful summer at camp.

To that end and because our number one priority at camp is the health and safety of our community, here is an update from our camp Medical Director, Dr. Irene Moff:

Ramah Galim's medical committee is excited to be planning for a safe and healthy Kayitz 2022! We are happy to see the Omicron surge waning but we also know that preparation for whatever the next six months bring will be critical to our success.

Based on the recommendation of the National Ramah Commission medical committee, to ensure the safest camp community possible, ***all COVID vaccine-eligible campers, staff members, and visitors must be up-to-date on their COVID vaccinations (including booster vaccines when eligible) prior to coming to camp.***

We will continue to evolve our testing, travel, and other summer protocols in the coming months and will keep you posted as the summer approaches.

In the meantime, please be sure to schedule doctor's appointments for pre-summer physicals (physical must be after June 15, 2021, and updated form must be signed by physician). All other forms must be uploaded by the **April 1, 2022**, deadline. Timely form completion helps us to prepare for a healthy summer.

We are grateful for the partnership with our entire camp community that is committed to creating the most safe and incredible Ramah experience for our kids!

Please feel free to reach out with any questions.

L'briut ("to health"),
Irene Moff, MD
Medical Director, Ramah Galim
